India (DPDP Act 2023 & IT SPDI Rules 2011): We process personal data primarily on the basis of informed, explicit consent and for limited legitimate uses recognised by statute (e.g., fulfilling contracted services, complying with legal orders, or emergency medical response). Health information is classified as sensitive personal data. The platform enforces granular, separate, non-pre-ticked opt-in checkboxes prior to document uploads, consultation bookings, and session recordings. Acceptance of general Terms & Conditions is never conflated with consent for health data processing.

UAE and International Clients: For clients residing in the UAE or other jurisdictions, we rely on explicit consent for special categories of health data, performance of contract for wellness services, and legal compliance for transaction records. Consent may be revoked at any time; revocation does not invalidate prior lawful processing.
